Communication API

**ENGAGE  
CUSTOMERS  
EASILY &  
SECURELY,  
AT ANY TIME**

---

**AUDIO | VIDEO | CHAT**

## **Strengthen your customer relationships**

Integrate video and audio calling with your existing EHR, Health system, CRM or ERP and connect with your clients securely and seamlessly!

Contact us to find out how you can connect to your customers more efficiently by integrating with our video/audio API.

**(+1) 888 466 6066 | [info@genixtec.com](mailto:info@genixtec.com) | [www.drcare247.com](http://www.drcare247.com)**

**Experience our API solution, that will help you enhance interfacing with your customers.**

## **VIDEO & AUDIO**

HD video and audio calls even in low bandwidth connection to ensure the customers have the best experience possible. No additional software or plug-in downloads are required.

## **RECORDING**

All calls are by default or on demand recorded and securely stored in storage. Get access to view or download the recorded audio or video through API or admin portal.

## **INTEGRATION**

Seamlessly integrate with your existing or new web/mobile application to enable video, audio and chat. With few lines of code, the integration is made simple and scalable.

## **INTEROPERABILITY**

Compatible with most common web browsers and various devices like desktop, tablet and mobile. Works on iOS, Android or hybrid mobile platforms. REST API makes integration platform agnostics.

## **INSTANT CHAT**

With instant live chat, customers can simply and easily communicate by text, even while you are on a call. Alert notifications for new message and maintained chat history.

## **CUSTOM BRANDING**

Your branding, logo and color with custom display text and send message to participants. In addition to host and participants, add guest to the call. Multi-lingual support and date time localization.

## **COMPLIANCE & SECURITY**

Hosted in HIPAA, PCI compliance infrastructure with enterprise grade security and highly scalable. SSL encryption, data retention, disaster recovery with 24x7 infrastructure monitoring.

**Bring your  
ideas to  
life**
